FLOOD ELEVATION ACKNOWLEDGEMENT

I, the undersigned, do hereby acknowledge that I have been advised that the proposed structure is located in a Special Flood Hazard Area, as determined by the Federal Emergency Management Agency (FEMA). I have been advised of the minimum elevation of this/these structure(s) as determined on the Flood Insurance Rate Map (FIRM). I further understand that ALL structures MUST be constructed at or above the required base flood elevation. This includes attached and detached structures, air conditioning units, water heaters, washing machines, and dryers.

In order to ensure that all Floodplain Regulations are met I understand that I MUST submit to the Department of Planning & Zoning a Building Under Construction Elevation Certificate (Forms Elevation) **PRIOR** to pouring concrete foundation (slab on grade foundation) or **PRIOR** to vertical construction after placement of piers or columns (elevated pier foundation). FAILURE TO SUBMIT THE REQUIRED INFORMATION WILL RESULT IN A STOP WORK ORDER BEING PLACED AGAINST FURTHER CONSTRUCTION ACTIVITY UNTIL REQUIRED INFORMATION IS SUBMITTED TO THE DEPARTMENT OF PLANNING & ZONING AND APPROVED.

I also understand and acknowledge that a Finished Construction Elevation Certificate MUST be submitted to the Department of Planning & Zoning once the construction is complete, all machinery and/or equipment such as furnaces, hot water heaters, heat pumps, air conditioners, elevators and their associated equipment have been installed and the grading around the building is complete. A Certificate of Occupancy will not be issued until ALL required documentation is received and approved by the Department of Planning & Zoning.

COASTAL ZONE MANAGEMENT ACKNOWLEDGEMENT

In accordance with Louisiana Revised Statute 49:214.21 et seq., the State of Louisiana administers a Coastal Zone Management Program in order to protect, develop, and restore the resources of the state's coastal zone. Because the entirety of St. John the Baptist Parish lies within the state-defined coastal zone, any work that involves the placement of fill/slab, site clearance, dredging, or other related activity must be approved by issuance of or exemption from a Coastal Use Permit. Other activities regulated through a Coastal Use Permit include subdivisions, drainage facilities, and energy infrastructure.

In order to streamline the Coastal Use Permit determination process, applicants may submit a Joint Permit Application to determine if a proposed project requires a Coastal Use Permit or a United States Army Corps of Engineers 404 Permit. If you need any assistance filling out your Joint Permit Application, please contact the Louisiana Department of Natural Resources Office of Coastal Management at 225-342-0884. You can find the Joint Permit Application online at the following websites:

ACKNOWLEDGEMENT

I, the undersigned, acknowledge that I have been advised of the State of Louisiana's Coastal Zone Management program and understand that a Coastal Use Permit and/or United States Army Corps of Engineers 404 Permit may be required for work within the state-defined Coastal Zone. Further, I understand and acknowledge that I am solely responsible for fines and penalties if my proposed project is found to be in violation of the State of Louisiana's Coastal Zone Management Program and Section 404 of the Federal Clean Water Act.
