**REQUEST FOR QUALIFICATIONS  
Garyville Lighting, Parking and Streetscape Improvements**

**BACKGROUND**

St. John the Baptist Parish (the Parish) seeks to address public improvements to include lighting, streetscape and parking infrastructure along Historic Front and Museum Streets in the Garyville National Historic District. The Parish is interested in procuring the services of an engineering firm and/or team to complete project scoping, build alternatives analysis and conceptual design for this project.

The town of Garyville has a rich local history centered on the timber industry and dating back over 100 years. Over the past decade, the Parish and dedicated citizens have taken steps to revitalize this historic town through increased preservation of unique architecture and direct funding to projects located along the “Main Streets” of the district: Historic Front and Museum Streets (see Exhibit E: Project Area Map). As a result of these efforts, recent private investments have been made to fully restore two important landmarks with several others underway, pending financing. To proactively build catalytic growth along this corridor and further the revitalization of this important community asset, the Parish seeks to redefine the public portion of the streets through improved lighting, parking and streetscape improvements such as green infrastructure, crosswalks and / or landscaping. These streets are locally owned and bisected by the Kanas City Southern rail line. If designed appropriately, proposed enhancements will improve the historic district’s distinct character while working to attract new business / tourism and serve as a community asset for growth. Moreover, improvements made can help to improve local parking situations, lighting for night events and neighborhood safety, and address localized stormwater management issues.

In addition to serving as the “Main Streets” of the Garyville Historic District, this area also serves as an entrance to the Garyville Timbermill Loop, a recently completed bike trail through a forested area north of the town. This corridor also serves as a node for bicycle traffic between the town and the Mississippi River Bicycle Trail. As an important trailhead and center of local historic tourism, improvements can be made to attract visitors and spark further revitalization and private investment.

The Parish hereby issues a Request for Qualifications (RFQ) for qualified firms (herein referred to as “Company” or “Submitter”) for the purpose of conducting project scoping, design alternatives, and conceptual design for this project.

The successful respondent will propose improvements which accentuate the historic district and its unique architecture while improving upon recent investments and Parish plans. Improvements will also address parking, lighting and visual aesthetics of the corridor. Further, the successful respondent will work collaboratively with any required agencies or stakeholders to develop conceptual alternatives which are ready to enter full design and permitting without delay.

The successful respondent must demonstrate that the team assembled to respond to this solicitation has experience in designing projects with Main Street principles, parking / traffic management and landscape

architecture and/or green infrastructure design. Team members, likely, would consist of civil engineers, landscape architects, planners, or other specialty design consultants.

A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the ineligibility of its principals. Each participant may, but is not required to check the Non-Procurement List
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings
10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
