

PUBLIC MEETING ANNOUNCEMENT

Vicknair Canal (Woodland Drive) Pump Station Project

St. John the Baptist Parish is inviting community members to share their thoughts and feedback on the proposed Vicknair Canal (Woodland Drive) Pump Station Project. This initiative aims to enhance flood mitigation efforts and is supported by funding from the Resilient Communities Infrastructure Program (RCIP). Your input is valuable as we strive to serve our community effectively.

The administration of St. John the Baptist Parish is actively overseeing the planning and execution of an essential infrastructure initiative to mitigate flood risk during significant rainfall events. This project encompasses the construction of a pump station at Woodland Drive, situated along the Vicknair Canal. The Parish believes this advancement will greatly enhance stormwater outfall capacity and bolster the community's resilience against flooding.

Are you passionate about building a more resilient future for your Parish? Please join us for an in-person public meeting regarding the Vicknair Canal Pump Station Project. This meeting will provide an opportunity to gain insight into the project, raise questions, and share your thoughts. Your participation is valued and greatly appreciated.

Meeting Details:

**St. John the Baptist Parish
1811 West Airline Highway
Laplace, LA 70068**

Date: February 24, 2026

Time: 5:00 PM

Residents of St. John the Baptist Parish are encouraged to participate in a community survey on the proposed project, address flooding concerns, and prioritize infrastructure needs. Your valuable feedback will play a crucial role in shaping the project's implementation and ensuring that the community's interests are properly considered.

The Parish greatly appreciates your participation and feedback.
